

Compassion has no borders. | www.globalpartnersincare.org

Who We Are

In 2017, Global Partners in Care became an affiliate of the Hospice Foundation. This followed the launch of Global Partners in Care, the re-imagined, re-designed, and re-inspired organization formerly known as FHSSA.

With a mission to build partnerships to enhance compassionate care globally, Global Partners in Care is continuing to build on the proven partnership model that has been successful through FHSSA.

Global Partners in Care, still fully committed to partnerships in Africa, is expanding its reach to other countries in need.

What We Do

Our Partnership Program provides the opportunity for U.S. hospice palliative care organizations to make long-term commitments to support hospice palliative care organizations in another country. The goals for each partnership are to:

- ❖ Develop international relationships
- ❖ Provide educational opportunities for health care professionals
- ❖ Promote idea-sharing
- ❖ Generate financial support

How We Help

To help partners engage in a wide variety of activities to expand and improve services for those in need, Global Partners in Care:

- ❖ Provides personalized consultation and ongoing technical assistance
- ❖ Wires financial donations from U.S. partners to their respective international partner
- ❖ Collaborates and coordinates with international and national palliative care associations
- ❖ Connects partners so they can learn from each other

Join Us!

Establishing a partnership in a developing country provides your organization the opportunity to:

- ❖ Gain a global perspective on hospice palliative care
- ❖ Expand visibility in your community
- ❖ Boost your staff morale
- ❖ Broaden fund raising opportunities
- ❖ Join a network of other global partnerships
- ❖ Pay it forward to help those where the need is great and resources are few

"The partnership with Nkoranga Hospice in Africa has made us a better hospice. We have learned the meaning of humility and grace. We are reminded of how powerful it is to make the most of everything you have and how little we actually need to make a meaningful difference in the lives of others."

Catherine Hamel, Executive Director, Gilchrist Hospice Care, MD
